Wetland Reserve Easements

**USDA pays 100% of the easement
and 75 to 100% of restoration costs**

**You agree to restore wetlands and
permanently protect the property**

Eligible land:

- Wetlands farmed under natural conditions;
- Farmed wetlands, prior converted cropland, farmed wetland pasture, or farmland that has become a wetland as a result of flooding;
- Pasture or production forest land where the hydrology has been significantly degraded and can be restored;
- Riparian areas linking protected wetlands;
- Lands adjacent to protected wetlands that contribute significantly to wetland functions and values;
- Previously restored wetlands that need long-term protection.
